

Grammar - Sentence Pattern**1. INTRODUCTION TO SENTENCES**

A **sentence** is a group of words that makes complete sense.

Examples

- The dog is barking.
- Ram plays cricket.
- Birds fly in the sky.

Every sentence has **two important parts**:

1. Subject 2. Predicate

2. SUBJECT

The **Subject** tells us:

- who performs the action,
- or what the sentence is about.

It is usually a **noun** or a **pronoun**.

Examples

Sentence	Subject
Ram is playing.	Ram
The cat is sleeping.	The cat
Birds fly in the sky.	Birds

Technique to Identify the Subject

Ask: 👉 **“Who?” or “What?”**

Examples

Ram is playing.

👉 Who is playing? → Ram

The cat is sleeping.

👉 What is sleeping? → The cat

Memory Trick

Subject = “Main Person/Thing”

The sentence begins by talking about someone or something.

3. PREDICATE

The **Predicate** tells something about the subject.

It usually:

- begins with the verb,
- and contains the remaining part of the sentence.

Examples

Sentence	Predicate
Ram is playing.	is playing
The cat is sleeping.	is sleeping
Birds fly in the sky.	fly in the sky

Technique to Identify Predicate

After finding the subject, **everything else becomes the predicate.**

4. GOLDEN FORMULA OF SENTENCE

Sentence = Subject + Predicate

Examples

Subject	Predicate
Birds	fly in the sky
My father	reads the newspaper every morning
Children	are playing in the park

Quick Practice

Example 1

The sun rises in the east.

Subject → The sun Predicate → rises in the east

Example 2

Children are playing in the park.

Subject → Children Predicate → are playing in the park

Memory Technique

“Every sentence has TWO halves.”

Subject → Who/What

Predicate → Says something about it

5. WHAT IS A SENTENCE PATTERN?

A **sentence pattern** is the arrangement of words according to their grammatical functions.

English sentences generally follow: **Subject + Predicate Structure**

The predicate may contain:

- Verb
- Object
- Complement
- Adjunct / Adverbial

6. BASIC ELEMENTS OF SENTENCE PATTERNS

All sentence patterns are formed using five basic elements.

Symbol	Name	Function
S	Subject	Doer
V	Verb	Action/State
O	Object	Receiver of action
C	Complement	Description/Identity
A	Adjunct / Adverbial	Extra information

Master Memory Formula: “SVOCA Rule”

S → **Someone**

V → **does**

O → **something**

C → **becomes/describes**

A → **somewhere/sometime**

7. UNDERSTANDING EACH ELEMENT

S – SUBJECT

The doer or topic of the sentence.

Examples

- Ravi
 - She
 - The children
-

V – VERB

The verb shows:

- action,
- state,
- or condition.

Examples

- runs
 - eats
 - is
 - became
-

Technique to Identify Verb

Find: 👉 “What action/state happens?”

Example

She sings beautifully.

👉 What happens? → sings

So: sings = Verb

O – OBJECT

The object receives the action.

It answers:

- Whom?
- What?

Examples

She bought a pen.

👉 Bought what? → a pen

The teacher praised Aadhira.

👉 Praised whom? → Aadhira

Types of Object

(a) Direct Object (DO)

Directly receives the action.

Example

I ate an apple. 👉 Ate what? → an apple

(b) Indirect Object (IO)

Tells:

- to whom,
- or for whom the action is done.

Example

She gave me a book.

Word	Function
me	Indirect Object
a book	Direct Object

Easy Technique

“Person + Thing”

In most cases:

- Person → Indirect Object
 - Thing → Direct Object
-

C – COMPLEMENT

A complement:

- describes,
- renames,
- or identifies the subject or object.

It usually comes after: 👉 **Linking Verbs**

Common Linking Verbs

Verb	Example
is	He is honest.

seem	She seems tired.
become	He became a doctor.
look	The sky looks blue.
appear	The man appears calm.

Important Point

A complement:

- does NOT receive action,
- it only describes.

Memory Trick

“Linking verbs love complements.”

If the verb is:

- is, am, are, was, were, be, being, been
- seem, become, look, feel, appear, sound, smell, taste, remain, grow
→ mostly SVC pattern.

Difference Between Object and Complement

Object	Complement
Receives action	Describes/identifies
Comes after action verb	Comes after linking verb
Answers whom/what	Gives description

A – ADVERBIAL / ADJUNCT

An adverbial gives extra information about:

- place,
- time,
- manner,
- frequency.

Examples

Adverbial	Type
in Chennai	Place
yesterday	Time
quickly	Manner
every day	Frequency

Easy Technique

Ask:

- Where?
- When?
- How?

The answer is often an adverbial.

8. MAJOR SENTENCE PATTERNS

PATTERN 1 – SV (Subject + Verb)

The sentence contains:

- only subject,
- and verbs.

Examples

- Birds fly.
 - He sleeps.
 - The baby cried.
-

Technique to Identify SV

If nothing important comes after the verb, it is usually SV.

PATTERN 2 – SVC (Subject + Verb + Complement)

The verb is usually a linking verb.

Examples

- She is a teacher.
 - The sky is blue.
 - The boy looks tired.
-

Technique to Identify SVC

Step 1 → Check the verb.

Step 2 → Is it a linking verb?

Step 3 → Does the final word describe the subject?

If yes → SVC

Examples

The boy looks tired.

- Subject → The boy
 - Verb → looks
 - tired describes boy
- So → SVC
-

PATTERN 3 – SVO (Subject + Verb + Object)

The verb transfers action to an object.

Examples

- He wrote a letter.
 - They play cricket.
 - She bought a bag.
-

Technique to Identify SVO

Ask: 👉 “Verb + What?” or “Verb + Whom?”

If answer exists → Object present → SVO

Example

She bought a bag.

👉 Bought what? → a bag

So → SVO

PATTERN 4 – SVIDO (Subject + Verb + Indirect Object + Direct Object)

The verb takes two objects.

Examples

- She gave me a book.
- He told her a story.
- Mother bought the child chocolates.

Technique to Identify SVIDO

Look for: 👉 **Person + Thing**

Usually:

- Person → IO
- Thing → DO

Example

She gave me a book.

Part	Word
S	She
V	gave
IO	me
DO	a book

PATTERN 5 – SVOC (Subject + Verb + Object + Complement)

The object is followed by a complement.

Examples

- They elected him president.
- She painted the wall blue.
- We made him captain.

Technique to Identify SVOC

Check: 👉 **Does the last word describe the object?**

Example

They elected him president.

- him = object
 - president describes him
- So → SVOC

PATTERN 6 – SVOA (Subject + Verb + Object + Adverbial)

Object is followed by place/time expression.

Examples

- He put the book on the table.
- She kept her purse in the cupboard.
- They placed the chair near the door.

Technique to Identify SVOA

Some verbs require place information.

Common Verbs

- put
- keep
- place

Without adverbial, the sentence feels incomplete.

Example

✗ He put the book.

✓ He put the book on the table.

So → SVOA

PATTERN 7 – SVA (Subject + Verb + Adverbial)

A verb is followed by an adverbial.

Examples

- He lives in Chennai.
- She goes to school daily.
- The children are in the park.

Technique to Identify SVA

If:

- no object exists,
- but place/time exists → **SVA**

9. TNTET HIGH-SCORING TECHNIQUES

Technique 1 – Find the Verb First

The verb controls the sentence pattern.

Example

She looks happy.

- looks = linking verb
 - happy = complement
- So → SVC**

Technique 2 – Check for Object

Ask:

- whom?
- what?

Example

He kicked the ball. 👉 Kicked what? → the ball

So → SVO

Technique 3 – Identify Linking Verbs

If verb is:

- is
- seem
- become
- appear
- feel
- look

→ **mostly SVC**

Technique 4 – Check Whether Final Word Describes

Example

They called him a genius.

- genius describes him **So → SVOC**

Technique 5 – Watch for Place Expressions

Example

He kept the keys on the shelf.

- “on the shelf” is essential **So → SVOA**

10. COMMON TNTET CONFUSIONS

Confusion 1

He is in Chennai.

Not SVC. Why?

“In Chennai” shows the place.

So → SVA

Confusion 2

The boy looks tired.

Not SVO.

“Tired” describes a boy.

So → SVC

Confusion 3

He kept the bag on the chair.

Not SVO.

“On the chair” is compulsory.

So → SVOA

TNTET தேர்வுக்கான முக்கிய குறிப்புகள்

கவனிக்க வேண்டியது	நினைவில் கொள்ளுங்கள்
Linking Verb வந்தால்	பெரும்பாலும் SVC
இரண்டு object இருந்தால்	SVIODO
object-ஐ விவரித்தால்	SVOC
இடம் அவசியமாக இருந்தால்	SVOA
place/time மட்டும் இருந்தால்	SVA

Sentence Pattern

A group of words, which gives complete sense is called a sentence. The basic sentence patterns are given below:

1. SV	Child laughs.
2. SVO	I play hockey.
3. SVC	He is smart.
4. SVOC	I painted the car blue.
5. SVIODO	My father presented me a watch.
6. SVDOIO	She gave money to the poor.

Subject (S)- To get 'Subject' ask the question 'Who?' before the verb. It consists of nouns or pronouns and occurs before a verb.

Example:

Nancy danced well. Who danced well? (Here "Nancy" answers for the who?)

The child broke the glass. (Here "The child" answers the question who?)

Verb (V) - A verb shows an action or activity or work done by the subject. It also tells the status. To get 'verb' ask what does the subject do?

Example:

Jems **wrote** a letter. What did Jems do? (Here, 'wrote' answers the question)

He **is** a doctor.

The baby **is crying**.

Object (O)- To get the object, ask the question 'What?' or 'Whom?'. 'What' is for things and 'Whom' is for persons. Persons may be nouns or pronouns.

Example: He bought **a pen**. He handles **the computer**. I saw **him**.

Direct Object (DO) - Direct object answers the question 'what'.

I like **animals**.

Indirect Object (IO) - Answers the question 'whom'?

I gave **Rosy** a pen.

Complement (C) - The words, required to complete the meaning of a sentence are called Complement.

Example: He is **a dentist**. She named the boy **John**. It grew **dark**.

Object complement answers for the questions "How" asked on the object.

Example: He painted the car **blue**. How did he painted the car?

Here the word blue answers for the question "How" asked on the object car.

Example: We call Kamarajar **Karmaveerar**.

They selected her **leader**.

Adjunct (A)- To get 'Adjunct' ask the question where ,how, when or why.

Example: My father is a farmer **in thiruvavur**.

Where? (Place)	How? (Manner)	When? (Time)	Why? (Reason)
here, there	by bus / cycle	now, later	due to cold
every where	through efforts	after 2 years	through floods
in the sky	by mixing	when young	under compulsion
at home	by hard work	in the morning	carefully
